Seeking a 5-month Robotics Engineering Internship starting November 2026

SUMMARY OF SKILLS AND QUALIFICATIONS

Programming | C • Python • MATLAB • VHDL

CAD & Design | CATIA • SolidWorks • PSpice

Technical Knowledge | Solid & Fluid Mechanics • Strength of Materials • Electronics • Thermodynamics • Transmission Systems • Wave Physics • Aeronautics

Tools | Linux (Bash) • GitHub • VS Code

Methodologies | Algorithmic Optimization • Agile • Project Management

Languages | French (Native) • English (Professional) • Arabic (Professional)

Licenses | Private Pilot License (PPL) in progress • BIA (French Aeronautical Studies Certificate) • Judo Brown Belt

EDUCATION

Master of Engineering | Robotic Engineering & Drones

2025 - 2028 (Expected)

EFREI Paris, France

- Relevant Courses: *Electronics, Transmission Systems, MATLAB, Algorithmic Optimization, VHDL*

International Exchange Program | Computer Science

Jan. 2026 – May 2026

Concordia University, Montreal, QC

- Relevant Courses: *Operating System Architecture, Computer Architecture, Networking, Mathematics*

Pre-Engineering Program | Aerospace Engineering

2022 - 2025

IPSA Paris, France

- Relevant Courses: *Solid & Fluid Mechanics, Strength of Materials, Thermodynamics, Wave Physics, Aeronautics, Electronics, CATIA, PSpice*

PROJECTS

MATLAB Engineering Simulations

2022-2025

IPSA Paris / EFREI Paris

- Developed engineering simulations in MATLAB covering electronics and transmission systems

CAD Design & Mechanical Projects

2022-2025

IPSA Paris

- Designed mechanical components using CATIA and SolidWorks for aerospace engineering applications

Autonomous Vehicle Prototype

2020

High School | Course en Cours Competition

- Designed and modeled a small-scale autonomous vehicle using SolidWorks for a national engineering competition

WORK EXPERIENCE

Assistant Mechanical Engineer Intern

July 2025 – Aug. 2025

EDF (Nuclear Power Plant), Saint-Vulbas, France

- Monitored and validated industrial system modifications in compliance with nuclear safety protocols (PP58)
- Supervised the integration and testing of cooling systems (PNPE0339) in compliance with ASN safety standards
